

POWERING TECHNOLOGY

Reliably powering your business.
Solving your power needs.

MILITARY POWER SOLUTIONS

ABOUT UNIPOWER

UNIPOWER is a world leading provider of dependable high-efficiency power electronics and energy conversion systems and power supplies. UNIPOWER solutions include a complete line of high-efficiency rectifiers, battery chargers, inverters and DC power systems for mission critical applications. With over 25 years of experience supporting customers in more than 60 countries, UNIPOWER is focused on delivering robust, reliable power solutions across the globe.

Our Products

UNIPOWER's latest product offering includes a family of Best-in-Class rectifiers, battery chargers and power distribution products that offer high efficiency and industry leading MTBF rates. Led by an innovative design engineering group, we provide highly reliable standardized products, as well as innovative, custom designs. Utilizing the latest topologies and power design expertise, we are prepared to meet the most demanding military requirements.

UNIPOWER PRODUCTS

Our Customers

UNIPOWER has an installed base of over 300,000 AC and DC power systems delivered to world-class companies in North America, South and Central America, Europe, Africa and Asia. We have extensive experience in all military branches including the U.S. Army, Navy, Airforce and Marines.

Our promise to you - "Quality Starts With Me"

UNIPOWER's mission is to provide superior service and superior designed, highly robust products for our customers in all markets. We know that understanding our customers means listening to their needs and designing a solution around them.

SAGEON II

DC POWER SYSTEMS

ARE-M

BATTERY CHARGERS

KEY FEATURES

- >90% Efficiency Rectifiers
- 600A / 32kW Load Capacity
- Hot-Swap Rectifiers
- Remote Monitoring & Control
- Field Replaceable Controller
- Ethernet Comm. with SNMPv3
- Battery Monitoring / Testing
- Comprehensive Alarms
- Bulk Feed for External PDU
- +40F to +158F Operating
- LCD Display/Touchpad
- Easy Installation

KEY FEATURES

- Microprocessor Controlled
- Simultaneous V & I Readings
- 24, 48, 125 & 250V Output
- 25A to 500A Output Current
- Low Maintenance
- Remote Communications
- Temperature Compensation
- High Efficiency & Power Factor
- High Voltage Shutdown
- Multiple Charge Modes
- Full Event Log
- Digital Display

Why Choose UNIPOWER?

- **BAA Qualified.** All UNIPOWER military products qualify for the "Buy American Act" program and DoD projects. Certification documents available, consult your UNIPOWER sales representative.
- **GSA Advantage!** All products are available for purchase through the GSA Advantage! Online processing program.
- **Simplified Ordering Protocol.** UNIPOWER partners with our 8(a) certified partner.
- **End to end solutions.** UNIPOWER is a total integrator including:
 - Systems Design
 - Systems Integration
 - Systems Testing
 - Systems Support
- **Over 25 years of experience in industrial power conversion.** The UNIPOWER team provides industry leading expertise to help you make the right power decisions for your application.
- **Global Service Network.** With a global network, UNIPOWER is located close to your operation for fast, dependable delivery and service. We speak the language and live the culture of our global customers.
- **Industry Leading Quality System.** UNIPOWER guarantees reliability with a full range of internationally accredited regulatory quality approvals including UL, CSA, CE and UNIPOWER products are manufactured in ISO facilities.
- **Flexibility to meet your needs.** UNIPOWER can customize solutions to meet your specific application requirements.
